KyckGlobal Secures SOC 2 Compliance

Third-party audit of security protocols finds zero exceptions

ATLANTA, GA (May 27, 2020) – KyckGlobal, Inc., the digital payments firm offering the broadest array of payment types from a single point of reconciliation, announced that it has successfully secured a Service Organization Control (SOC) 2 Type 1 attestation report for its innovative payments platform, with zero exceptions. This achievement is the result of an audit by an independent qualified security assessor and is the most stringent level of certification available in the payments industry.

The SOC 2 report examines controls at a service organization that address matters of security, processing integrity, confidentiality, privacy, and availability. The report demonstrates a company's ability to not only implement critical security policies, but also prove compliance over an extended period of time.

Founded in 2018 and based in Atlanta GA, [KyckGlobal](#) operates a secure cloud-based platform that powers funds disbursement across a broad array of payment types, all from a single point of reconciliation. The platform also performs key compliance and support processes for payments to contract/gig workers. The KyckGlobal solution is now in use across a variety of use cases including specialty consumer lending, rent payments aggregation, claims and appeasements, advance pay, and others.

“SOC 2 compliance is a gold standard achievement that reflects KyckGlobal's commitment to keeping our customers' data safe and secure,” said KyckGlobal's Vice President of Risk and Compliance Michael Gibson. “Combined with stringent corporate security protocols, these achievements affirm KyckGlobal as best-in-class for businesses seeking a reliable and long-term payments solution.”

KyckGlobal secured PCI compliance in 2019 and is now currently engaged for SOC 2 Type 2 certification.

About KyckGlobal, Inc.

KyckGlobal delivers streamlined outbound B:C payments to accelerate business, featuring a cloud-based platform with a growing array of today's most popular payment types from a single point of reconciliation. The KyckGlobal solution improves the customer experience with more inclusive payment types and various options for faster payments. By allowing payers to issue one-time and recurring payments from one integrated platform, KyckGlobal is transforming how business gets done in the key verticals of specialty consumer finance, marketplaces and staffing, claims and appeasements, and multi-level marketing, among others.
